#### Tips for successful irrigation:

Inspect the property during irrigation.

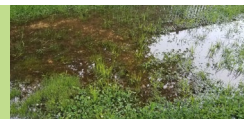

Remove pets from the area.

Trim grass to less  
than six inches and  
maintain berms.

Clear leaves or debris  
from pipes under driveways  
and walkways.

Remove items from the yard  
that could be damaged or  
pose a safety concern.

Provide clear access  
to the irrigation valve.

#### Irrigation valve tampering is a serious issue.

Flooded streets, homes, alleys and washed out berms are often the result of customers operating their own valves. Please allow Tempe staff to perform this service. If there is a problem with the irrigation valve or service, or if someone is tampering with an irrigation valve, please call Customer Service at 480-350-8361.
